W **West Country** style cider uses traditional cider apple varieties, which are high in tannins giving bitterness and astringency to the cider. Proper Cider you might say.

M **Modern** style cider uses more eating and cooking apple varieties, which give more acidity, producing a fresh, crisp and light cider.

P **Perry/Pear** style cider. Perry cider will use traditional cider pear varieties whereas pear cider uses more eating pears, extracting and fermenting the pear juice just as with apples.

F **Flavoured** style cider. Is where there is the addition of either fruit, spice, herb or hop to the Apple Cider base, taking tradition in a whole different direction.

K **Keeved and Fine style** - special methods for making special ciders. Whether Keeved, Bottle conditioned, Champagnois method or vintage they all add class to the humble apple.
